GDI COMPANY PROFILE

Global Diesel Innovations (GDI) is committed to providing our customers the greatest value and most innovative technology in the fuel enhancement industry. GDI offers the best solution for improving the overall performance and increasing the longevity of any gasoline or diesel engine, while also reducing toxic emissions. To do so, GDI has partnered with Xp Lab, the leader in the development of fuel enhancers. This partnership gives GDI the opportunity to provide consumers with Xp3, the most advanced product in the industry that currently treats billions worth of fuel annually in the industrial and commercial markets.

By partnering with Xp Lab, GDI is joining forces with a well-established and proven company that has been developing and improving Xp3 since early 90's. GDI understands that consumers are looking for ways to improve engine efficiency and save on costs for their businesses. GDI has the infrastructure and expertise to offer you an affordable solution to ever-increasing fuel prices, while greatly benefiting your engine and reducing maintenance costs.
